You could lose money by investing in a money market fund. Although a money market fund seeks to preserve the value of your investment at \$1.00 per share, a fund cannot guarantee it will do so. An investment in a money market fund is not insured, or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to a money market fund, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time.

¹ The Fund has adopted a policy to invest 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities) in order to qualify as a "government money market fund" under federal regulations. The Fund may invest a significant percentage of its assets in repurchase agreements. Repurchase agreements are transactions in which the fund purchases government securities and simultaneously commits to resell them to the same counterparty at a future time and at a price reflecting a market rate of interest. Income from repurchase agreements may not be exempt from state and local income taxation. Repurchase agreements often offer a higher yield than investments directly in government securities. In deciding whether an investment in a repurchase agreement is more attractive than a direct investment in government securities, the Fund considers the possible loss of this tax advantage.

² The Fund is actively managed and its composition will differ over time. Portfolio composition may exceed 100% due to rounding.

³ The Fund and UBS Asset Management (Americas) Inc. ("UBS AM") have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to: (1) waive its management fees through March 31, 2025 in an amount equal to 0.13% of the Fund's average daily net assets; and (2) waive its management fees and/or reimburse expenses so that the Fund's ordinary total operating expenses through March 31, 2025 (with certain exclusions, as applicable, including interest expense, expenses related to shareholders' meetings, and extraordinary items) would not exceed 0.60%. The Fund has agreed to repay UBS AM for any waived fees/reimbursed expenses to the extent that it can do so over the following three fiscal years without causing the class expenses in any of those three years to exceed this expense cap and that UBS AM has not waived the right to do so. The fee waiver/expense reimbursement agreement may be terminated by the Fund's board at any time and also will terminate automatically upon the expiration or termination of the Fund's advisory contract with UBS AM. Upon termination of the agreement, however, UBS AM's three year recoupment rights will survive.

⁴ Unsubsidized yield refers to the yield before waivers/reimbursements.
